

CompanyCommission.h

```
graph TD; A[CompanyCommission.h] --> B[QtWidgets/QMessageBox]; A --> C[sqlite3.h];
```

The diagram illustrates the dependencies of the `CompanyCommission.h` header file. It is represented by a gray rectangular box at the top. Two blue arrows originate from the bottom of this box, pointing downwards to two separate white rectangular boxes. The left box contains the text `QtWidgets/QMessageBox`, and the right box contains the text `sqlite3.h`. This visualizes that `CompanyCommission.h` requires both Qt's message box functionality and the SQLite library to function.

QtWidgets/QMessageBox

sqlite3.h
